Subject: Yucca Mountain

Part of Records Package / Supplement / Correction

- C.htm

552551

I live in Henderson Nevada and have never liked the idea of the Yucca Mountain Project but after the events of September 11th it absolutely TERRIFIES me that such a large nuclear plant would be so close to hundreds of thousands of families and children. I don't think anyone around here would ever have a sense of peace and security knowing that such a large target for any of these diabolical terrorist groups to hit is right in our backyard.

Transportation of these waste from all around the nation is a great concern of United State Citizens and I'm sure that must be a terrorist dream! I would be afraid to drive on the roads with all the waste being transported. It would be devastating to the entire nation.

I beg of you NOT to go through with this project. The long term ramifications could be absolutely catastrophic. I'm afraid this entire valley would become a ghost town. Even tourist would not want to visit us!

Thanks you and God Bless America.
Debbie Buehner
